SUMMARY:

I am multidisciplinary designer with expertise in branding, graphics, UI and UX design, aim to create a remarkable future at the intersection of design, strategy, and technology.

EXPERIENCE:

Graphic Designer - Hans Arts | June 2022 - June 2023

- Worked over diverse projects creating brand Identity including billboards, business cards, brochures, flyers, and posters.
- Enhanced brand recognition, which results in a 15% sales increase for seasonal campaigns.
- Collaborated closely with cross-functional teams to understand project requirements, gather feedback, and ensure that design solutions align with business objectives and user needs.
- Utilized design tools such as Figma, Photoshop, and Illustrator.

UI/UX Design Intern - Nueflo | Feb 2022 - May 2022

- Contributed to SaaS product development by conducting user research, optimizing iterations, and minimizing onboarding time by 15%.
- Utilizing Figma and Adobe Photoshop, I designed wireframes, mock-ups, and prototypes that followed design principles and industry standards.
- Presented design concepts and user journey maps to stakeholders, incorporating feedback to refine and optimize the final product

UI/UX Design Intern - Yellowchalk Studio | July 2021 - Oct 2021

- Interacted with multidisciplinary teams to design mobile and web applications, aligning with clients' goals and accelerating user satisfaction by 18%.
- Analyzed user behavior and interaction data to identify issues and areas for enhancement.
- Crafted unique design systems and style guides for multiple projects, raising design reliability and effectiveness by 30%.

PROJECTS:

[\[Link\]](#) Sage VR Application - Master's Thesis

- Revolutionized India's spiritual landscape for youth by integrating AI-guided meditation, immersive scripture study, and AR/VR experiences, bridging cultural heritage with modern technology.

[\[Link\]](#) Zenify Mobile Application

- An innovative app utilizing personalized biofeedback to enhance meditation practices and deepen self-connection for busy modern individuals.

[\[Link\]](#) Moda Muse Mobile Application

- Vogue Voyage Revolutionizes Fashion with Real-Time Trend Analysis and Ethical Data Analytic.
- I researched and designed an interactive mobile application that uses real-time social media and online shopping data to provide actionable insights, filling a gap in trend analysis.
